

Training with VR/Simulations

Who

Immersive Learning & Skill Development

Beneficial to:

readily available and accessible training that anyone can use

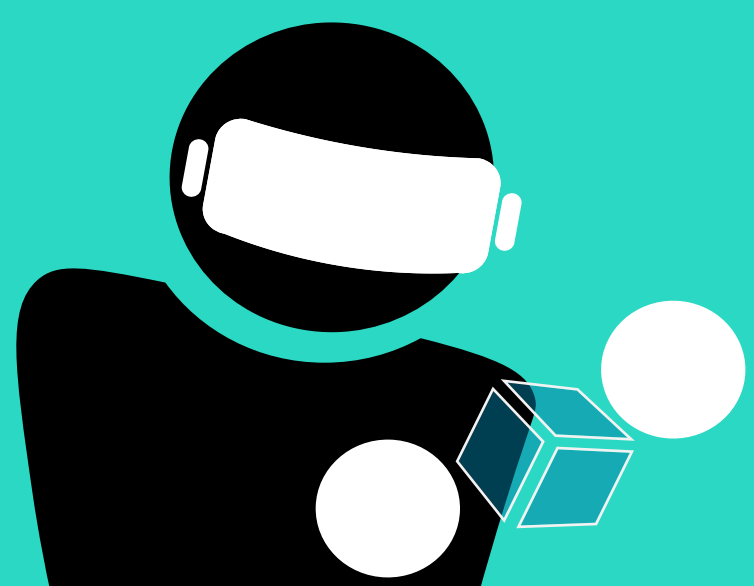

Your Customers

New Trainees

Students

Your Employees

What

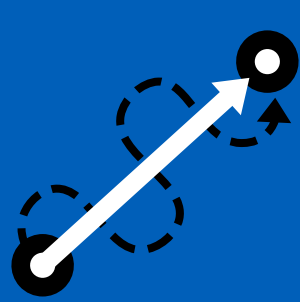

strong results and engagement with lower resource costs

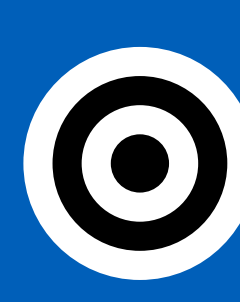

fast, repeatable, targeted training

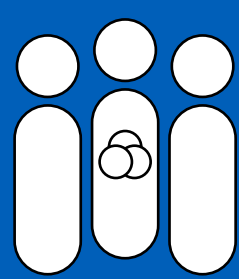

Reduce Material Costs

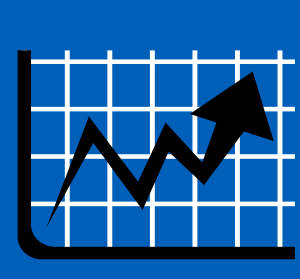

Relevant Content Focus

Strengthen Skills Quickly

Build Team Collaboration

Data-Driven Feedback

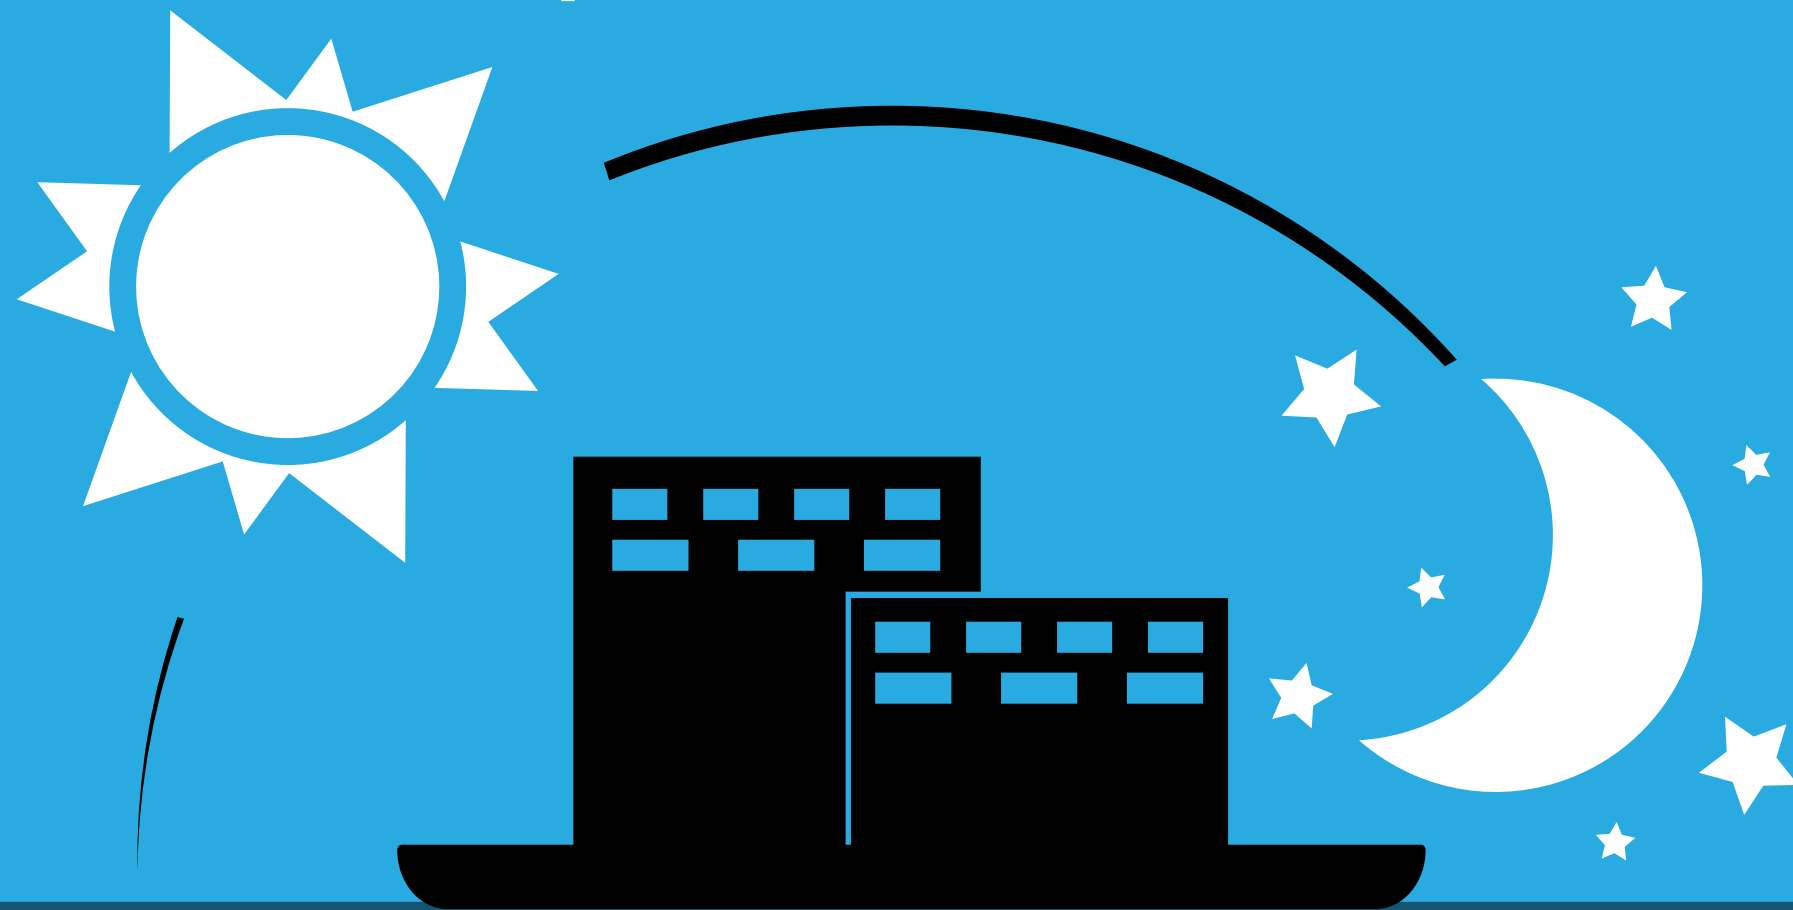

Safe Training Environments

When

Available 24/7

Safe, Guided Practice
With or Without an Instructor

* REMINDER *
don't get locked in at night...

Where

Almost Anywhere With...

- 8-12ft of Open Space

- A Power Source

better training accessibility and flexibility

* No Production Interruptions for Training

* No Hazardous Materials Handling

* No Expensive Project Materials

* No Required PPE

How

Real Training Learning Experience

Through Immersive Virtual Reality and Simulation Technology

training experiences that combine the benefits of traditional training with modern technology
